

TF to Exterminate the Deep-rooted Evil in Moon's Administration, Eradicate the Leftists!

The Task Force(TF) to exterminate the deep-rooted evil in Moon's Administration was established by an official document of the presidential secretary in the Blue House or Cheong Wa Dae who has no authority to direct the government ministries. It is not only illegal, but it is a typical deep-rooted evil of the Leftists who overturn everything of the previous government if they establish a regime.

Especially, many civil groups such as Lawyers for a Democratic Society, PSPD(People's Solidarity for Participatory Democracy), and Citizens' Coalition for Economic Justice, and so on are participating in TF to exterminate the deep-rooted evil related to the power institutions such as the prosecutors, the police, the National Intelligence Service, the National Tax Service, the Financial Supervisory Commission, and the Fair Trade Commission. Above all, the big bribery case of the Roh, Moo-hyun's administration should be investigated but the case was not included. The fact that Moon's administration included only Lee, Myung-bak's and Park, Guen-hye's administration in exterminating the deep-rooted evil shows political revenge and oppression.

The eradication of the deep-rooted evil in the Moon's administration and the liquidation of past history indicate a typical political revenge by the Leftists that reverse the flow of history. If the Moon's administration is to operate TF to exterminate the deep-rooted evil, the political revenge should be stopped. Instead, the big bribery case of the Roh, Moo-hyun's administration should be investigated. The balanced policy which leads to the national unity and the policy to cope with the international competition in the age of the fourth industrial revolution should be explored through the active negotiation between the ruling party and the opposition party.
